Who is the person who has most inspired you?

My father. He was an avid car buff. I greatly miss him and his talks.

How did you come to acquire your winning vehicle?

Having owned two modern Challengers so far – 2008 Challenger 500 SRT, 2015 Sublime Challenger Hellcat – my wife and I wanted the ultimate Dodge Challenger, AKA, the 2018 Dodge Challenger SRT Demon.

We purchased it as soon as the order banks for the Demon opened and were fortunate enough to have the order filled.

I was longing for the '70s stock look, and Ricky Bogart of Bogart Racing Wheels was kind enough to make a custom set of these "Modern Steelies" in a three-piece aluminum version. Like the Demon, they are a modern interpretation of the Dodge Classic and perfectly set the tone for this spectacular car.

How did your automotive passion begin?

From the time I was able to walk and talk, my father took me to the drag races, annual new car shows and many custom car shows. Together, we watched any TV program or movie that had, as he put it, "really cool cars" in it.
